

The 3 questions for small business leadership teams

- 1) Does everyone on this team and in the company know where we're trying to take the business?
- 2) Does everyone know what they are accountable for in making the above happen and their particular metric to focus on?
- 3) Are we as a leadership team having fun running this business?
(If the answer to the above is "yes", you may not need EOS!)

"Once we implemented EOS, we stopped wasting time with unnecessary meetings. We're getting more done and are communicating more effectively with our employees." ~ CEO Technology Company

"Before EOS, I didn't have a lot of insight into the bigger picture. Communication from management was not streamlined. Now we're much more aligned as an organization, and I know what we are trying to do and how I can help." ~ K. Waats, Account Manager, PMMC

The Ideal EOS Client:

- 10-250 employees
- Owners/Leaders are:
 - Growth-oriented
 - Willing to be open, honest & vulnerable in front of others
 - More afraid of status quo, then making changes
