

Your Staff is Already Using AI: Where it Belongs and Where it Does Not

A Practical Session for nonprofits that need to decide what AI staff can use, what information must stay protected, and where human judgment must remain in control.

DATE	TIME	LENGTH	WHERE
Tuesday, October 27, 2026	1:00 PM EDT	60 minutes	Live online

OBJECTIVES

- 01 Find AI use already happening without oversight
- 02 Judge what's safe to hand to AI and what should never be automated
- 03 Assign responsibility for checking AI output before it's used
- 04 Spot where personal data or vendor terms create legal exposure
- 05 Understand why a written policy alone isn't oversight, and how control gets built into the system

SPEAKERS

Aamir Ahamad

Information Security &
AI Governance Analyst

Javed Sajad

Attorney at Law,
AI Governance & Privacy
